# Thoughts about current events in Venezuela (Video)

written by Struggle - La Lucha  
January 25, 2019

We have been asked by several “camaradas” outside Venezuela to send a video or have a radio interview about current events connected to the latest Coup attempt promoted by Trump’s regime.

We decided to post a video with this idea in order to avoid repetition and to broaden the reach of the message. We try in this video to cover the most recent events and offer our perspective about it, putting aside other analysis like those related to economic issues, relations with Colombia and Brazil, and other relevant matters that also deserve consideration.

We hope you enjoy it:

## Part 1

## Part 2

If you like it, feel free to share it and use it for whatever reason you consider important and for defending democracy, the almost 10 million Venezuelans that voted last May 20 in the presidential elections and for preserving the Bolivarian Revolution.
