Reclaim and honor Rev. Dr. King Jr. by resisting war and racism

A call to action on the Dr. King Jr. birthday week

STOP WAR ON IRAN

BALTIMORE MARCH TO WASHINGTON D.C.: Jan 18

Money for jobs, education, health care & people's needs

In 1967 on April 4, Rev. Dr. King Jr., passionately spoke out against the Vietnam war. He exclaimed that the bombs in Vietnam also exploded at home in our decaying cities.

These words are just as true today. Donald Trump and the trillion dollar oil and fracking businesses stand to profit from a war on Iran and Iraq while the people of the world suffer.

In Baltimore, we remember Trump's hateful racism in describing our city and attacking Congressman Cummings. His insults hurled at our city are comparable to his attempts to demonize the people of Iran and Iraq to justify war for oil profits.

This is the same white supremacist ideology that justifies the assassination of foreign officials of color and the nearly one million Iraqi children killed by U.S. war. These are war crimes. We will not be fooled by those who would dismiss the humanity of our international family.

If war is to be declared in our name, let it be a war on racism, police terror, low wages, homelessness and poverty. End anti-immigrant violence, sexism and LGBTQ2S bigotry. Close the detention camps.

FEED THE PEOPLE, NOT THE PENTAGON

- This April 700,000 people will lose food stamps; millions will get fewer benefits. In Baltimore, 22.2% of people, many of them children, go to bed hungry. The loss of food stamps (SNAP benefits) will mean that many small grocery stores will have to close their doors. But not the Pentagon! This year the military got a \$130 billion increase. In addition, social security disability

will be cut.

EDUCATION AND HEALTH CARE

- The children of Baltimore, DC and everywhere need clean lead-free drinking water, more and better paid teachers, books and decent schools. Redirect the billions for war to save our youth and pay for free universal health care for all.

LOW WAGES & WORKERS RIGHTS

- Close to half of the workers in the U.S. are poor! 53 million workers between the ages of 18 to 64 — 44% of all workers — qualify as low-wage. This amounts to a median income of \$18,000 per year. Amazon and Walmart refuse to respect workers rights to unionize. Amazon even threatened to fire workers who spoke out against climate change.

PENTAGON, THE WORLD'S BIGGEST POLLUTER, SHUT IT DOWN

- Indigenous people courageously protected the Amazon rainforest from fires and destruction. Now Australia is engulfed in flames threatening the existence of an entire continent and killing millions of animals. Jakarta, Indonesia home to 30 million people is literally sinking, destroyed by flood waters. The capitalist climate crisis threatens the entire planet. The Pentagon with it's 800+ military bases and endless wars is one of the world's biggest polluters.

WAR BREEDS REPRESSION

- Police departments across this country are militarized, increasing racism

and repression. Globally the US is number one in mass incarceration. Yet the problems of drug addiction, despair and violence continue. Instead of investing in the community, Johns Hopkins has hired a private armed police force.

ONLY THE PEOPLE CAN STOP THE WAR!

The people of Baltimore are Marching on the Dr. King Jr. weekend. We invite you to join us. If you cannot come to Baltimore, and we expect that many can't, please hold solidarity actions in your city, town, school or work place.

Now is the time to reclaim and honor Rev. Dr. King Jr. by resisting war and racism.

ENDORSE THE CALL
