Struggle-La Lucha is sharing this urgent bulletin on the case of political prisoner Aytaç Ünsal in Turkey, who won his release in September after a 213-day hunger strike. His fellow lawyer, Ebru Timtik, died after 238 days on hunger strike. [Get background on the struggle here](#).

Dec. 10: Death Fast resister and lawyer of the People's Law Bureau, Aytaç Ünsal, was arrested in Edirne, Turkey. His mother, retired judge Nermin Ünsal, was informed that he was detained by Edirne anti-terror police last evening: "His health was not good. He was nervous, had a lot of trouble and was receiving treatment. The one-year suspension of his punishment was revoked. The police just called and said that he had been detained on suspicion of escaping."

According to information obtained from the People's Law Bureau, it was reported that anti-terrorism police officers had detained him for 48 hours. For Aytaç Ünsal, whether 48 hours or even a minute, he is not in a position to be kept in a cell and remain safe. The fascist police in Edirne tortured him and are responsible for everything that might happen to our comrade.

The fascist AKP [the Justice and Development Party of Turkish President Recep Tayyip Erdoğan] is afraid of Aytaç because, together with the resisters and the martyrs of resistance, he achieved victory with the Death Fast. Because he is a fighter of justice. Because together with our martyr Ebru Timtik, he has been the advocate of the people and has devoted his entire life to the struggle for his people. Because with their struggle they give voice to the thousands of people of Turkey, workers and youth, who are feeling the injustice and repression of AKP fascism. This fact was clearly shared with every place in the world through the death fast resistance and the martyrdom of Helin, Mustafa, Ibrahim and Ebru.

That's why they arrested him, tortured him and made the decision to send him to prison again, in Edirne F-type prison. That's why, one month earlier, police raided the house of resistance where he was being treated after 213 days of Death Fast. Because he never surrendered. He never stopped being the advocate of the people. This is not a crime but an honor! For this cause our immortal comrade, lawyer Ebru Timtik, gave her life, for the cause of the people, for the cause of justice.

We stand by Aytaç Ünsal's side. We are giving our solidarity to him and promise that we will struggle together and in the end WE WILL WIN.

Freedom for people's lawyer Aytaç Ünsal!

The honor of resistance will defeat torture!

International solidarity is the weapon of the people against fascism and injustice!
