The [Moratorium NOW! Coalition](#) is calling on all progressive forces to join a demonstration on Wednesday, January 20 at 4 PM at the corner of Michigan Avenue and Third Street in Detroit.

Just two weeks after the fascist coup attempt, we want to take to the streets to make it clear we firmly stand against the right-wing and white supremacists - with or without Donald Trump.

On the day Joe Biden is sworn into office as President, we want to send the

Democratic Party a message that we demand a program to end the economic suffering faced by poor and working people.

We will gather outside the Detroit Police headquarters to condemn the violence of DPD against Black Lives Matter demonstrators, the outrageous lawsuit against [Detroit Will Breathe](#) protesters, demand the resignation of Trump supporter Police Chief Craig, and denounce those corporate bosses (like Trump supporter Dan Gilbert) and the many politicians who serve the interests of the rich against the people.
