The ugly and vicious racist coup attempt by Trump and his fascist followers, is not over. Many of these same groups are planning actions at local state capitols and again in Washington D.C. on January 17, on the Dr. King Jr. holiday weekend, leading up to the January 20 Inauguration.

Trump's fascist movement is a threat to all workers and is particularly aimed at overturning the movement against racism and police terror. It is critical that we mobilize on Dr. King Jr. weekend, in whatever way is possible — car caravans, socially distancing protests, sick outs, strikes — in our cities and towns. We must send a clear message that the majority of workers and poor are deeply and actively

opposed to the confederate flag waving mob that seeks to turn history back.

Do not let them define this weekend. Let's build a massive car caravan.
