Fidel: The Untold Story is an inspiring documentary by Estela Bravo. The film features interviews with: Phillip Agee, Muhammad Ali, Harry Belafonte, Ramsey Clark, Angela Davis, Elián González, Nelson Mandela, Gabriel García Márquez, Ted Turner, and Alice Walker. More importantly, it features footage of Fidel and the Cuban revolution.

We are showing this film to celebrate Fidel's birthday (August 13, 1926) and his remarkable life.

At this pivotal moment when Cuba is under attack during a world pandemic and suffering from a criminal blockade, our understanding of this history is more important than ever.

Join us Saturday via Zoom. We will join in song and following the film Rev Chambers will speak about her face-to-face encounter with Fidel. Bring your snacks and enjoy the film together.
