Los Angeles front of resistance, invites you to Anti-Imperialist Summit of the Americas (Panel 4th / Action 6th) to counter the imperialist Summit of the Americas.

The Summit of the Americas is taking place here in LA next month (June). The Biden administration is blocking Cuba, Venezuela and Nicaragua and the “Latin” American left from participating at the summit. Union del Barrio along with other organizations are organizing to make sure that the left is present at the Summit.

We want to make sure that the voices of Indigenous people, African people, women, LGBTQI+, environmentalists and everyone else is represented!
