The outcome on Monday, just like every major legal decision, hinges not on this or that legalism but on how strong we push back against their attempts to grind us down. History shows that laws follow the people's struggle for progress, not the other way around. The fight for union rights, civil rights, and the right to the vote all bear this out.

Join us on Monday, July 18, 8:30 AM to tell AG Landry and his fellow flunkies for the rich that WE WON'T GO BACK.

Driving up Monday, let us know if you need a ride.
