Eyewitness: Donbass, Russia & Ukraine

Harriet Tubman Center for Social Justice - L.A.

John Parker will give an account and analysis of his fact-finding trip through Donbass and Russia. Struggle - La Lucha newspaper sponsored the trip to find out what was really going on, to counter the media lies from singular sources in Ukraine. Parker took video of the area and testimony from Lugansk residents, living in shelters near the front lines of the war. To date, the Biden administration has sent \$70 billion to fund the proxy war against Russia. Don't miss this opportunity to hear truth from the front lines of the US-funded war.

There will be an additional report from Mwezi Odom of the Uhuru Movement and African People's Socialist Party. Mwezi Odom will describe the current campaign to demand Hands Off Uhuru in response to the FBI attack on the Uhuru and its leaders.

We will remain COVID safe, please wear a mask and social distance.
