Thousands of more Palestinians have been murdered in Gaza by U.S.-made bombs since Israel broke a ceasefire on Dec. 1. On Dec. 8, the United States vetoed a United Nations Security Council ceasefire resolution that had 97 co-sponsors. Even France and Japan voted for the resolution.

United Nations Secretary-General António Guterres said hundreds of thousands of people in Gaza are “simply starving.” Civilians in Gaza “are being told to move like human pinballs – ricocheting between ever-smaller slivers of the south, without any of the basics for survival,” he said.

The Zionist regime is determined to push hundreds of thousands of Palestinians into Egypt, with Genocide Joe Biden’s approval. This would be an even larger catastrophe than the 1948 Nakba when Palestinians were driven from their homeland.

Thousands of protesters flooded Wall Street as the U.S. vetoed the ceasefire resolution. At the same time, thousands were protesting Biden’s visit to Los Angeles. We have to keep fighting to stop the massacre in Gaza. Palestine will win!
