Defeat bosses' campaign of division All out to defend trans lives & fight racism

Orlando ► Florida ► Oct 7

By Struggle-La Lucha Orlando,
Fla., bureau

With under a month to go, the National March to Protect Trans Youth & Speakout for Trans Lives is catching fire. A growing number of endorsers in Florida and nationally have signed on.

The march will gather at 12 noon on Saturday, Oct. 7, at Orange and Anderson streets, near City Hall in Orlando, Florida. Following the march, protesters will return to the City Hall site for a speakout featuring local trans youth, groups from around the country, and musical performances.

The protest will call for reversing the vicious measures enacted by Gov. Ron DeSantis and the Florida legislature as well as their counterparts in other states, banning gender-affirming health care for trans children

and adults, prohibiting queer students and teachers from being out at school, banning trans people from using public restrooms that match their gender, and other genocidal policies.

Organizers aren't just focused on attacks on the LGBTQ+ community. They say they hope to unite all those under attack by the far right in Florida and nationwide.

The demand "Stop racist attacks on our communities" is prominently featured on the leaflet and poster, which also draws attention to the suppression of voting rights and repression of Black history in schools.

The protest will also demand free, accessible abortion on demand, an end to threats against Pride celebrations, and dropping the charges against the Tampa 5 protesters.

INTERVIEW: "Standing up for trans people equals self-defense for all workers"

- Trans activists speak: 'Florida needs a grand display of unrest'
- Florida's 200-year war against oppressed people

Stop Cop City: Free the activists!

The Socialist Unity Party and Struggle-La Lucha newspaper condemn the indictment of 61 Atlanta-area activists on "anti-racketeering" charges related to the Stop Cop City movement.

This is the latest in a string of repressive and violent moves by the state of Georgia and the city of Atlanta against a powerful and growing people's movement to stop the intensification of racist police terror and environmental destruction.

Among the "crimes" allegedly committed by the indicted activists are things like handing out flyers, attending benefit concerts, organizing jail support, and providing mutual aid - the kinds of activities carried out every day by progressive and community-based movements all over the country.

In January, Manuel "Tortugueta" Terán - a nonbinary activist defending the forest where Cop City is set to be built - was murdered in a hail of 57

Stop Cop City: Free the activists!

written by Struggle - La Lucha
September 15, 2023

The Socialist Unity Party and Struggle-La Lucha newspaper condemn the indictment of 61 Atlanta-area activists on “anti-racketeering” charges related to the Stop Cop City movement.

This is the latest in a string of repressive and violent moves by the state of Georgia and the city of Atlanta against a powerful and growing people’s movement to stop the intensification of racist police terror and environmental destruction.

Among the “crimes” allegedly committed by the indicted activists are things like handing out flyers, attending benefit concerts, organizing jail support, and providing mutual aid – the kinds of activities carried out every day by progressive and community-based movements all over the country.

In January, Manuel “Tortuguita” Terán – a nonbinary activist defending the forest where Cop City is set to be built – was murdered in a hail of 57 bullets during an attack by multiple police agencies. True to form, the cops claimed Tortuguita fired first, but it was proven to be a lie – and an independent autopsy later confirmed that they were killed execution-style.

Republican Attorney General Chris Carr’s indictment gives the game away by dating the start of the so-called “conspiracy” to the police murder of George Floyd in May 2020: the beginning of the largest protest movement in U.S. history for racial justice.

But it is not only the far-right Republican state government behind these attacks. The Democrat-led city of Atlanta has also participated in the war on Stop Cop City activists, including blatant interference in the campaign to get a referendum on the ballot to stop the project.

At the national level, other cities have already announced plans to follow in Atlanta’s wake with a further militarization of police agencies. All factions of the capitalist

state and its political representatives are united around intensifying police repression.

We call upon the people's movements throughout the U.S. to unite in defense of the Stop Cop City activists and push back this latest effort to make people's protest and resistance illegal while further enabling fascists inside and outside police departments to wage war on the workers and oppressed.

Cop City will never be built! Not in Atlanta, not anywhere!

U.S. funds war, takes over Ukraine assets

By Gary Wilson

The U.S. is funding a proxy war against Russia — Congress has approved \$13 billion for Ukraine — seizing Ukraine's assets in the process.

The U.S. is spending \$2.5 billion per month just on weaponry in Ukraine, which is seven times what was spent on weaponry in Afghanistan at its height, according to Special Inspector General for Afghanistan Reconstruction John Sopko speaking on NPR — August 17.

The Obama administration helped overthrow Ukraine's elected president in February 2014, and installed a far-right regime loyal to Washington. At the time, Joe Biden was the Obama administration's point man on Ukraine. He visited the country more than half a dozen times from 2014 to 2016.

Beginning in 2014, Joe Biden's son Hunter served on the board of a Ukrainian energy company, Burisma. Hunter was paid "as much as \$50,000 per month," according to the New York Times. Burisma was under investigation by a Ukrainian prosecutor, Viktor Shokin, for corruption. NPR reported in 2018:

"At an event at the Council on Foreign Relations in 2018, Biden said that on one of his many trips to Ukraine, he told the country's leaders that they had to get rid of the prosecutor if they wanted \$1 billion in U.S. aid."

On Aug. 11, 2023, Attorney General Merrick Garland appointed U.S. Attorney David Weiss as special counsel to lead an investigation into Hunter Biden.

Donald Trump says this shows Joe Biden committed corruption in Ukraine. Trump wants to dig up dirt on Biden for political purposes, but he is not and has never been against corruption. Corruption is Trump's mode of operating.

Trump used his position as president to enrich himself and his family personally. For example, he stayed at his own hotels while on official business, which cost millions (much more than \$50,000 a month). He also used his office to promote his own businesses, such as his Trump Organization.

In addition, Trump engaged in a more general, broader pattern of corruption. For example, he has been accused of making deals with foreign governments that benefited him personally, and he used his power as president to silence any complaints.

U.S. finance capital takes over

Meanwhile, U.S.-based finance capital really has taken Ukraine's assets. "Your money is not charity, it's an investment." That's what Ukrainian President Volodymyr Zelensky said in his address to the U.S. Congress while visiting Washington on Dec. 21, 2022.

John Parker reported in Struggle-La Lucha: The trajectory of the latest vampiric deals of the foreign investors.

Continued on page 8

A 2019 rally to protest against government plans to lift the moratorium on agricultural land sales, a step eagerly awaited by Wall Street's BlackRock hedge fund but opposed by the Ukrainians fearing a foreign land grab. The sign reads, "No to sales of Ukrainian land."

Jail Trump for racism & war crimes

By Stephen Millies

The whole world witnessed the insurrection in the U.S. Capitol on Jan. 6, 2021, that sought to overturn the 2020 presidential election. So why did it take two and a half years to finally indict Trump on Aug. 1 for trying to steal the votes?

Federal prosecutor Jack Smith never lacked evidence. Trump's fingers were all over the attempt to reverse the election.

Secret Service agents close to Trump tried to take Vice President Mike Pence to Andrews Air Force Base to stop the counting of electoral votes. Gen. Charles Flynn, the brother of Trump's first national security advisor Michael Flynn, delayed sending troops to the capitol for 187 minutes.

Trump made calls to state officials demanding changes in the vote totals.

Key to Trump's conspiracy was attempting to steal Black votes in Atlanta, Detroit, Milwaukee, and Philadelphia. Election workers were threatened and harassed by pro-Trump mobs.

Accompanying all of the Trump indictments is the burning hatred of tens of millions in the working class who know the danger that Trump represents. This is particularly so in Asian, Black, Indigenous, and Latinx communities.

For many, it was as if the segregationist former Alabama governor and presidential candidate George Wallace had made it to the White House.

Trump isn't being indicted for his bigotry and encouragement of racist violence. He's not being prosecuted for keeping immigrant children in cages and denying them health care.

No mention is made of Trump's continuing occupation and bombing of Syria. Or his other war crimes, like the assassination of Iranian Gen. Qassem Soleimani, who was on a dip-

Rally in Niamey, Niger on July 30. See pages 10 and 11.

lomatic peace-making mission when he was murdered in Baghdad by a U.S. drone.

Both Iran and Iraq have asked for Trump's extradition for the murders of General Soleimani, Commander Muhandis, and five others.

The wealthy scorn democracy

Nobody should think that Trump's behavior is out of the ordinary for the super-rich. Many big capitalists support Trump, including hedge fund operators as well as oil and gas frackers.

That's how he got to the White House in the first place. Many of the 756 U.S. billionaires are just as greedy, crude, and bigoted as Trump.

The "old money" in Philadelphia made the fascist Frank Rizzo Philly's mayor. Their police bombed the MOVE house on May 13, 1985, killing 13 Black

people, including six children.

None of the U.S. billionaires refused Trump's tax cuts. That includes former New York mayor and current Trump critic Michael Bloomberg, whose \$94 billion stash is almost 40 times larger than Trump's.

Bloomberg spent \$250 million to buy three elections as the Big Apple's mayor. That's as corrupt as anything Trump did.

The New York Times attacks Trump. Yet the newspaper endorsed Rudolph Giuliani (the "No. 1 unindicted co-conspirator" in the latest Trump indictment) for reelection as New York City mayor in 1997.

Giuliani should have been jailed decades ago for presiding over a trigger-happy police force whose cops fired 41 bullets at Amadou Diallo, killing the African immigrant.

As Trump's top accomplice, Giuliani bragged that he kicked 640,000 New Yorkers off public assistance.

The wealthy and powerful scorn democracy. They find it repulsive that the vote of a homeless person — or any poor and working people — should count as much as theirs.

Oil billionaire H.L. Hunt wanted a social order in which the wealthiest individuals could cast the most votes. Hunt even wrote a novel entitled "Alpaca" describing this monstrosity.

Utah Senator Mike Lee says the United States isn't and shouldn't be a democracy. Reactionary columnist David Harsanyi wants to "weed out ignorant Americans from the electorate."

Wall Street Journal editorial page editor Robert Bartley justified George W. Bush going to the White House de-

McCarthyism is back: Together we can stop it

written by Struggle - La Lucha
September 15, 2023

Progressive organizations and prominent individuals have just released an important sign-on letter to reject the new McCarthyism that is accompanying the U.S. government's Cold War agenda against China. Struggle-La Lucha and the Socialist Unity Party are endorsers of this statement.

We stand together against the rise of a new McCarthyism that is targeting peace activists, critics of US foreign policy, and Chinese Americans. Despite increased intimidation, **we remain steadfast in our mission to foster peace and international solidarity, countering the narrative of militarism, hostility, and fear.**

As the US government grapples with a major crisis of legitimacy, it has grown fearful of young people becoming conscious and organized to change the world. **Influential media outlets like The New York Times have joined right-wing extremists in using intimidation tactics to silence these advocates for**

change, affecting not only the left but everyone who supports free speech and democratic rights.

The political and media establishments, both liberal and conservative, have initiated McCarthy-like attacks against individuals and organizations criticizing US foreign policy, **labeling peace advocates as “Chinese or foreign agents.” This campaign uses innuendo and witch hunts, posing a threat to free speech and the right to dissent. We must oppose this trend.**

Scientists, researchers, and service members of Chinese descent have been falsely accused of espionage and unregistered foreign agency, often with cases later collapsing due to insufficient evidence. Similar to the old “Red Scare” and McCarthy periods, when scores of organizations and leaders like W.E.B Du Bois, Eugene Debs, Emma Goldman, Paul Robeson and Martin Luther King Jr and others were attacked with fact-less accusations, today, prominent organizations and individuals, including **CODEPINK, The People’s Forum, and Tricontinental Institute have been targeted, with smears and accusations propagated by outlets like The New York Times.**

Their strategy paints a sinister image of a secret network funding the peace movement. **However, there’s nothing illegal or fringe about opposing a New Cold War** or a “major power conflict” with China, views shared by hundreds of millions globally. Receiving donations from US citizens who share these views is not illicit.

Media outlets have tried to scandalize funding sources of several organizations that are on the frontlines working with anti-racist, feminist, anti-war, abolitionist, climate justice, and other movements throughout the United States and globally. Meanwhile, when white neoliberal philanthropists flood the non-profit complex with significant funds to support their political agendas this is rarely scrutinized or made accountable to the communities they impact.

From The New York Times to Fox News, there's a resurgence of the Red Scare that once shattered many lives and threatened movements for change and social justice. This attack isn't only on the left but against everyone who exercises their free speech and democratic rights. **We must firmly resist this racist, anti-communist witch hunt and remain committed to building an international peace movement. In the face of adversity, we say NO to xenophobic witch hunts and YES to peace.**
